**FRIDAY 17<sup>TH</sup> & SATURDAY 18<sup>RD</sup> SEPTEMBER**

**JEPPE HIGH SCHOOL FOR BOYS & PARKTOWN BOYS HIGH**

King Edward VII School had the pleasure of getting athletics going at inter-school level after a long break. After the conclusion of the 116<sup>th</sup> Inter House Championships, King Edward VII School hosted Jeppe High School for Boys and Parktown Boys High School. This was the first time that King Edward VII School could compete at an inter-school level against its fellow all boy schools since 2019.

Due to Covid-19 protocols the event was hosted over two days to limit numbers at a venue. The field events were held on Friday 17 September and track events on Saturday 18 September. Funnily enough this worked very well and wasn't as rushed as a normal meeting and allowed athletes who compete in both track and field to not be under so much pressure to get to events.

Two new records were set by King Edward VII Athletes. Steven Sabino set a new U15 long jump record of 6m88cm and Teejay Ngwenya a new U15 800m record on a cold day of 2m01.4s.

The annual Triangular event which has great historical importance as it is arguably the oldest Johannesburg athletics event between the same three schools was a great success and enjoyed by all. A great pity that there were no spectators, but those are the conditions that we must compete under at present. Hopefully in 2022 we can have spectators. However, it was great just to be on the athletics track again.

Since it was the first time competing after a long athletics break, it was deemed a 'friendly meeting' with no tally of points. Due to us splitting the event over two days we were able to get more athletes per event than normal and still comply with the necessary regulations. Furthermore, due to the matric learners writing preliminary examinations the U17 and U19 events were combined. Matrics that wanted to compete could therefore partake in the event.

Below is a summary per event of King Edward VII athletes and their 'medal positions' for interest.
